

Never Miss a Call

With just one mouse click, operators can quickly adjust the delivery and destination of calls as required, ensuring the incoming call flow remains even and uninterrupted. Access to TouchPoint Attendant from PCs around the office means that additional users can be set up quickly if someone needs to assist with incoming calls.

Multi-site call control enables geographically dispersed operators to efficiently handle calls for one or more departments, for the whole organization or even for multiple tenants.

Extend Your Investment in Skype for Business

Skype for Business is part of a suite of applications that seamlessly integrate with Microsoft Skype for Business to provide organizations with a complete end-to-end unified communications solution:

Trusted Microsoft Partner

Enghouse Interactive has been a trusted Microsoft Gold partner for over twelve years. We provide interoperability with a full range of Microsoft platforms, including Exchange, Outlook, CRM Dynamics, Office 365, SharePoint, SQL Server, Windows Server and Skype for Business.

About Enghouse Interactive

Enghouse Interactive's integrated suite of solutions includes omni-channel contact center, self-service, attendant operator consoles and workforce optimization. This wide portfolio places us in the unique position to offer customers and partners a complete, fully featured solution from a single vendor. These solutions support the full range of deployment methods from premise-based to private, public or community cloud and hybrid requirements.
